

What is ESSSR?

- an **inter-university consortium** composed of members which share an interest on sustainability science and on matters related to sustainable development
- a **key organization**, filling in a gap in respect of the coordination of sustainability science teaching and research at European universities. Core climate change, health and sustainability are core research areas of **ESSSR**.

Objectives

The **ESSSR** supports the implementation of the goals of the Agenda 2030 for Sustainable Development by:

- I. providing a **platform** for universities to discuss the contribution of Sustainability Science and Research to the achievement of SDGs
- II. **implementing joint initiatives**, which show how sustainability science and research can help to achieve the SDGs
- III. contributing to the education of young scientists, by means of a **joint PhD programme**

Activities and Programmes

1. Teaching courses and digital learning programmes
2. Research projects
3. Research publications
4. Joint training of PhD and post-doctoral students

How to become a member:

If your university is interested to join our network as associate member, please e-mail us your short expression of interest.
